It had reached

OF THE

TRICKS OF QUACKS.

LET EVERYBODY READ THIS CAREFULLY.—There IS a Sarsaparilla for sale in the different towns called S. P. Townsend's Sarsaparilla. It is advertised as the ORIGINAL, GENUINE, and all that. This Townsend is no doctor and never was; but was formerly a worker on railroads, canals, and the like—yet he assumes the title of Doctor for the purpose of gaining credit for what he is not. He says "he ass attended two medical schools, and practiced for fifteen vears!"? Now the truth is, he never practiced medicine a PREAMBLE. years!!" Now the truth is, he never practiced medicine a day in his life! Such wilful, wicked misrepresentation looks had to the character and veracity of the man. I wish most sincerely, he had never made those statements of himself or of me. When will men learn to be honest and truthful in ell their dealings and intercourse with their fellow men! He applied to one Ruel Clapp to assist him in manufacturing his mixture, stating the large sums he would make, as an inducement to embark in the business. These men have been insulting and libelling me in all possible forms, in order to impress the public with the belief that the Old Doctor's Sarsaparilla was not the genuine original Sursaparilla, made from the Old Doctor's Original Recipic. This S. P. Townsond says I have sold the use of my name for \$7 a week. I will give him \$500 if he will produce one single solitary proof of this. His statements of Thompson, Skillman & Co., are nothing but a tissue of falsehoods, simply made to deceive the public, and keep the truth down in regard to his souring, fermenting compound. This is to caution the public to purchase none but Old Dr. JACOB Townsend's Sarsaparilla, having on it the Old Doctor's likeness, his family Coat of Arms, and his signatureacross the Coat of Arms.

manufactured on the largest can be and, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better; because it is prepared on scientific-principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Saraparilla. The Saraparilla root, it is well known to medical men, centains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover,

This is so prepared that all the mert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or fermentation is extracted and rejected, then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and heating properties. Prepared in this way, it is made the most powerful agent in the Cure of innumerable Discases.

Hence the reason why we hear commendation on every side in its favor by men, women, and children. We find it doing wonders in the cure of due course of law. send's article!

We wish it understood, because it is the absolute truth.
that S. P. Townsend's article and old Dr. Jacob Townsend's
Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no cliemts, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public heve that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health?

But what else should be expected from one who knows on thing comparatively of medicine or disease? It requires stitution.
